Waiting to welcome you

A mere stone's throw from Etosha National Park you will find the reimagined Mokuti Etosha that resides on its eastern border.

As you step foot onto Mokuti Etosha's sprawling grounds, you will immediately feel relaxed and enveloped by tranquillity. Surrounded by bush, three sparkling swimming pools, and stunning views, you'll feel as if you've stepped into a different world. There is just something about Mokuti Etosha that makes it unique and a definite destination on any traveller's list.

The architecture and designs will leave you breathless as nature is reflected in many design elements and the earthy colours and aromas, natural materials, rough tactile textures and rounded shapes all contribute towards the sense of Etosha – familiar but different.

The vast array of experiences and activities that we offer are bound to engage all your senses, leaving you immersed in the authenticity of the people in the north of Namibia. The Omulilo Spa will enhance your tranquil and relaxed state and after a pamper session you can either relax in the various amazing settings of the Oshana Pool Bar or partake in any of the authentic immersive activities that will create amazing experiences you will never forget.

What makes Mokuti Etosha so unique?

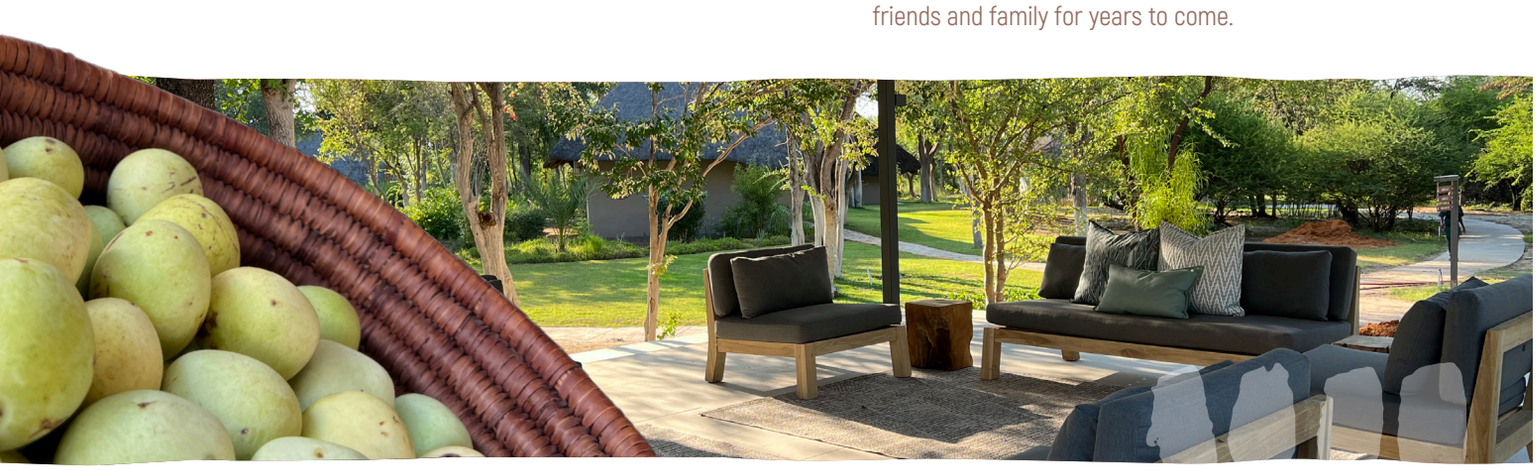
The true magic of our lodge lies in the experiences that await you. Whether you're seeking adventure or relaxation, we present you with a range of activities to suit every mood.

Visit Etosha in our luxurious adapted game viewers and enjoy your breakfast whilst sitting at one of Etosha's waterholes.

Mokuti Etosha presents visitors with an up close and personal encounter with some of Namibia's most interesting creatures at the Ontouka Conservation and snake park. The Ontouka Conservation & snake park offers daily snake shows, and research projects with a focus on educating and supporting the local communities. You are invited to talk to Namibia's very own snake whisperer, Francois Theart, conservation manager at Mokuti Etosha.

We are understandably proud of the conservation part, which plays a crucial role in protecting the environment and preserving biodiversity. Our endeavours are amplified by involving the local community in our efforts and educating them about conservation, ecology and biodiversity. The Conservation Centre also provides research opportunities that will ultimately have a significant impact on our environment, education, culture, sustainability and social responsibility.
Sundowners at one of our waterholes on the property is an opportunity to witness one of the wonders of the African bush, as the last rays of the sun touch the horizon, whilst sipping a G&T enjoying the tranquil sounds of Africa.

Another unique activity we are delighted with is the fact that you, our visitor can engage with the local people, cultures and landscapes in new and exciting ways. For those of you seeking an authentic African experience, our Hai//om San people offer a glimpse into their traditional way of life, sharing their ancient wisdom and knowledge of the Namibian bush. A Bushwalk with our Hai//om San people is something you will share with friends and family for years to come.



The uniqueness continues...

Our Omulilo Spa offers a world-class experience of luxury, relaxation and rejuvenation at the hands of highly qualified therapists and what's more – there is also a jacuzzi and steam room which will aid you in letting off steam (pun intended) and unwinding completely.

There are always those of you that seek a bit of exercise, and this is catered for at our fully equipped gym, Tennis courts or on our self-guided walking trails that let you experience the beautiful fauna and flora up close and personal. And if that is not enough, relax at one of our unique pools.
